Hi Phil,
The PDF file we have for the electrical drawings, which contains the lighting plans and panel board schedules, is 1,918 MB. The drawings are organized by floor (with separate lighting plan and panel board schedule sheets for each floor), so it will be tough to break out just those sheets for every floor. I could either send you the whole file (of the entire electrical set) or just the drawings for some particular floors. What would you prefer?
